Callouts

1. Integration of Google Sign-In using OAuth client ID

A login modal titled "Login" with a close button (X) in the top right corner. It features a text input field labeled "Phone", a red button labeled "Send One time Password", a horizontal separator with the word "or" in the center, another text input field with an envelope icon and the text "Continue with Email", and a Google "Sign in" button. At the bottom, it says "New to Zomato? [Create account](#)".

A screenshot of the Google Sign-in page in a Chrome browser. The address bar shows "accounts.google.com/o/oauth2/auth/identifier?redirect_uri=storagerelay%3A%2F%...". The page title is "Sign in with Google". The main heading is "Sign in" with the subtext "Continue to [zomato-clone-guvi.netlify.app](#)". There is a text input field labeled "Email or phone" and a link "Forgot email?". Below this, a message states: "To continue, Google will share your name, email address, language preference and profile picture with zomato-clone-guvi.netlify.app.". At the bottom left is a link "Create account" and at the bottom right is a blue "Next" button. The footer includes "English (United Kingdom)" with a dropdown arrow, and links for "Help", "Privacy", and "Terms".
